

Enforcer Industry Codexes

Enforcer inventory is produced by operating codexes. Enforcer orders codexes with customization. Orders at Enforcer Industries may customize inventory sets. Enforcer makes customizable inventory selections available in sets. Available color is selectable by set, item, guard armor. Orders of armor guards may be available in all colors. Uniform policy operators order available by industry rules. In rule to policy operation the helmets match inventory set. The standard operating codexes of Enforcers orders are complete sets.

Standard Set Elite Full Infantry Armor Codex

Helmet, armor vest, arm guards, plated gloves, leg guards, under guard, long boots, Enforcer cape.

Quarters Infantry Codex

Standard full armor set with baton, shield.

Standard full armor set with baton, shield, gauge pistol.

Auxiliary Infantry Codex

Standard full armor set with automatic gauge rifle.

Standard full armor set with automatic gauge rifle, shield.

Standard full armor set with smog flak rifle.

Standard full armor set with rocketry.

M1-6 Enforcer Tank

The armored hull is set for option customization. Option for smog round barrels. Smog barrel rounds levy heavy smog clouds into dispersion arrays (obstructive to breath, see, non-toxic.) Option for long distance cannon. Option for customizable attachments in development.

V-A8 Tank

The armored hull is attached with rocketry for countering air support. Fires long distance anti-air rockets.

Coven

Armored van with hull garrison used to rapidly deploy Enforcer orders.

Cabal Codex

Cabal codexes are armor guard inventory manufactured in Enforcer type customizations selectable by alternate industry specific compatible factors.

Helmet Codex

Enforcer Standard (Enforcer Helmet)

Enforcer Scion (Enforcer Scion Helmet)

Lygenforce Helmet
